BIO

EMPIRA is a producer and DJ from Lyon, France. Every track is written and produced by Empira himself, from the first rhythm to the drop, and most of them start from tribal percussion, a chant or a traditional instrument — an angle almost no one takes in hard music.

He wrote the official anthems for Hardkaze 2026 (The Code Of Life) and Hard Mess 2025 (Call of the Wild). His catalogue includes releases on Spinnin' Records with DJ SODA and LNY TNZ, and on Scantraxx with Belle Sisoski. Rave Syndrome, with Billx, has passed 1.5 million streams, and his music has been played on Slam FM and on the Black stage at Defqon.1.
